

# VB100 results summary

This summary table displays the results of the most recent comparative reviews. For more information on how each product has performed in all previous VB comparative reviews (back to 1998), click on the product name. To see the full results for each of the comparatives listed, click on the date of the test.

Excluded from this table are vendors that did not take part in any of the five most recent comparative reviews. To view a list of all vendors that have taken part in our comparative reviews, [click here](#).
